America is in the midst of the worst financial crisis since the Great Depression. John McCain and George Bush together supported the unfair tax cuts and deregulation policies that caused this crisis.<sup>1</sup> As President, McCain will continue to support the very policies that have put our jobs, our families' futures and our country in danger.

### **Under John McCain we would get four more years of:**

**Lost jobs:** McCain supports NAFTA, which has cost us more than a million American jobs.<sup>2</sup>

**Unaffordable health care:** As President, McCain will make employer-provided health care benefits part of taxable income.<sup>3</sup>

**Union harassment:** McCain voted against the Employee Free Choice Act, which would restore workers' freedom to form unions and bargain for better wages, benefits and working conditions without employer harassment.<sup>4</sup>

**Tax cuts for the wealthy, not the middle class:** McCain wants to make the Bush tax cuts for the wealthiest Americans permanent by cutting programs vital to working families.<sup>5</sup>

**Retirement uncertainty:** McCain strongly supports Bush's efforts to privatize Social Security, saying he is "totally in favor" of this risky scheme.<sup>6</sup>

**“I know something about risk.**

**I’m not willing to risk my family’s economic future on John McCain.”**
