

THE ALASKA DISASTA

SARAH PALIN

CONGRATULATIONS!

You have received a limited edition Sarah Palin trading card, full of some of **Governor Palin's Greatest Power Plays**, including:

OUTSOURCING AMERICAN JOBS

Palin supports the Bush/McCain economic policies that would send American jobs overseas. McCain voted against the repeal of corporate incentives that allow manufacturing plants – and jobs – to be rewarded for moving abroad. He also voted to kill worker protection from employers that layoff Americans to hire foreign labor at lower costs.

MILLIONS OF DOLLARS IN EARMARKS

Under Governor Palin's leadership, the state of Alaska has requested 31 earmarks worth \$197.8 million in next year's federal budget. Last year, Alaska received \$379,669,715 in pork for Fiscal Year 2008, more than any other state (the next highest pork recipient received \$96,550,564 less).

PROMOTING CORPORATE WELFARE

\$6 billion a year for the top financial services firms

\$4 billion a year for the top 5 oil companies

(including **\$1.2 billion a year** for Exxon-Mobil)

\$2 billion a year for the top 10 health insurance companies
